# Events

Edited By Sheryl Mattox

# St. Pat's 104th Best Ever

St Pats 104th did not fail to meet the standards of the Best Ever. The Snake Invasion started the event the week before St. Pats Day. Snake pits were set up and pledges could be seen killing the snakes with their walking sticks or shillelaghs. The Follies began on the Monday of Spring Recess. Follies are small events meant to be entertaining. This year's Follies included the green person competition, beard contest, most sweatshirts in a minute, snakeway limbo, and many more. After the Follies came the Gonzo Games. These events included a mechanical bull ride, giant pong, and more. Friday night was the Coronation where the King of St. Pat's, Thomas Markowski, crowned his new Queen of Love and Beauty, Emma Pearl Johannes.

# St. Pat's 104th Best Ever Continues

St. Patrick's Day fell on a Saturday this year. The day started early with the painting Pine Street to prepare for the parade. The parade began with lots of creative floats to see and plenty of beads to catch. This year's theme was "St. Pocalypse", so floats were decorated with visuals of environmental catastrophes or natural disasters. Following the parade was the Grateful Board Concert, hosted by the Student Union Board and the St. Pats celebration committee. The concert opened with Janus, followed by Middle Class Rut, and finally the headliners; Chevelle.

Drum major Madalyn Weston lead the Missouri S&T Marching band in the parade.

The parade of nations started in the parking lot at Havener and was lead by police escort.

After the parade, children could go from booth to booth and get their passports stamped by every country. In the above image, children stopped in awe to view a snake.

# Celebration of Nations

Celebration of Nations is a community and campus event. This was the second annual occurrence. Students joined with members of the community to walk in the Parade of Nations. More than 80 flags were used to represent the nations we come from. The event was held on a Saturday and started with the parade leading from Missouri S&T campus through downtown Rolla. Once downtown, different booths were set up for everyone to have fun, try different foods, view the petting zoo, and learn something new.

# Haunted Mine

This year's 14th annual Haunted Mine was equipped with all the necessities to create a good fright; a macabre circus, evil clowns, slaughterhouse, flame bursts, and insane prisoners. Screams, shrills, and the roar of a chainsaw could be heard throughout the mine at any time. Students and faculty dressed up in costume and make-up to represent some of the scariest demons from your nightmares. The Haunted Mine is a fundraiser for the mining department. It is all in good fun and fear meant to excite and terrorize. Michael Allen commented that, "Scaring guests of the haunted mine is always a great time."

Matthew Ortel hid in the shadows to jump out and scare guests walking by.

Travis Knife caked in bloody make-up.

Michael Allen sawing Hannah McNally. Allen was usually the last person guests of the mine saw as they were chased towards their cars with the chainsaw roaring.

Jimmy Taylor stood at the mine entrance sharpening a wooden stake with his knife.

# Freaker's Ball

Freaker's Ball is an annual event held by KMNK. It occurred on the Friday before Halloween. This year's Freaker's Ball included three bands; Vanity Theft, Moon Junior, and The North Decade. Vanity Theft is an all girls indie rock group from Ohio. Moon Junior is a local folk and freestyle band. The North Decade is from Springfield, MO and combines folk and blues elements with pop.

## Trunk or Treat

Trunk or Treat is hosted by the Chancellor's Leadership Academy and was held on Halloween. It is a way to keep children safe and encourage trick or treating. The kids dressed up and walked around the Residential College parking lot stopping by trunks of cars decorated by different student organizations.

## Black and Gold Pageant

The 2011 Miss Black and Gold Scholarship Pageant was the 46th annual pageant held by Epsilon Psi. The pageant was sponsored by Alpha Phi Alpha Fraternity, Inc and the Student Union Board. This year's pageant had 10 contestants. The contestants are judged by five main categories; 'Question and Answer', 'Talent', 'Poise and Appearance', 'Total Sale and Advertisements', 'Achievements, Scholarship and Projection'. The event started off with a welcome from the Queen and Queen's Aid, followed by the opening dance and introduction of the contestants. Then the girls performed in casual wear, business wear, talent, formal, and question and answer. Renita McKnight won the scholarship pageant. Autumn Swinson placed second and Elizabeth Kohlbaker placed third.

# Black History Month

Black History Month was celebrated with events such as jeopardy and game nights, and film showings of "The Help" and "War for Your Soul". The finale was the Black History Month celebration; which is meant to be entertaining, educational, and a review of all of the month's events. Wayne Robinson was the guest speaker for the celebration.

His speech was empowering and reflective of the lives of previous individuals. Robinson ended by saying, "Don't let anybody stop you from achieving greatness."

# Laura the Play

S&T's fall theater production is titled "Laura". It's based on the 1944 movie and starts with the murder of the beautiful Laura, played by Angela Watts. A detective played by Jacob Gardner is captivated by Laura's portrait and sets off to find her killer. He deducts five main suspects and continues his questioning. It appears that everyone who met the beautiful girl immediately fell in love with her. The detective even gets attached by reading her diary and letters as he tries to avenge her death. The twist comes when the detective accidentally fell asleep in Laura's apartment and wakes to the sound of someone entering, only to find it is Laura in the flesh. The person who was shot was actually a model while Laura was out of the country. It became even more urgent that the detective find the murderer.

## Greeks Give Back

Panhellenic Council, Interfraternity Council, and the Student Union Board teamed up with St. Jude's Children Research Hospital to help raise awareness and raise funds for the research into pediatric cancer. Up 'til Dawn is a new event the Greek community decided to hold this year and included speakers, Greek Sign, a battle of the bands competition, inflatable jousting games, raffles, door prizes, and a dunk tank.

The theme of the night consisted of "Cancer never sleeps, so neither will we," and took place on April 21. Months before the event, every fraternity and sorority worked hard to raise funds for St. Jude's. The goal for this year was to raise \$15,000. However, the entire Greek community was able to raise over \$21,000, far exceeding their original goal.

# Formation of the S&T Mars Rover Design Team

# S&T ROVER

...The Team hopes to foster collaboration and communication across disciplines, while building lifelong skills such as organization, commitment, and leadership. Most importantly, the Mars Rover Team wishes to support and further technologies with applications in the field of space exploration, so that a unified humanity may step beyond its cradle, and embrace its birthright of the stars.  
(Mars Rover Team Constitution)

The S&T Mars Rover Team was founded on January 11th 2012, by a group of enthusiastic students passionate about space exploration and was officially voted as an S&T design team towards the end of the spring semester. The Mars Rover Team is organized to operate like a small business, and is modeled after an Engineering Firm, with technical and administrative branches. It is run by a four person executive board. These positions are elected by the general body of the team and serve as the teams leading force.

The Mars Rover Team was specifically created to compete in the annual University Rover Challenge (URC) hosted by The Mars Society. The Mars Society is an international nonprofit organization that seeks to encourage space exploration and technologies. They hold this competition every summer at their Analogue Desert Research Station in Utah. The competition is to Design and build the next generation of Mars rovers that will one day work alongside human explorers in the field (The Mars Society). The competition is in its third year of operation, and has been attended by eight to ten universities, including teams from Canada and Poland. The Mars Rover Team of Missouri S&T intends on competing in the 2013 summer competition.

The team is comprised of dedicated, passionate, and hard working individuals, including several resident assistants. Every one of them shares a desire to better themselves and establish a legacy of excellence in this organization that will hopefully outlast their own personal impact.

## *A New Beginning ..*

by Sahil Parikh

*Draining* by Ben Hoagland

By the front porch I sat reading,  
Reading a story with my eyes lazily gazing,  
Gazing far off into the breaks of dawn,  
I waited, but nature had played it's con.

Because no sun came, thus fooling me,  
As if to mock, memories of my life, I could see,  
Forlorn, like the black clouds in the skies,  
Forsaken, like the thunderbolts with angry cries.

It had taught me to walk, to fall and run,  
But I had always lost while it had always won,  
Oh ! A good man I am and will always be,  
I say to thee,  
Then is it not fair, now, that you set me free ?

Set me free so that I can make my own luck,  
Like Your winds and rain which, my windows, struck,  
Till now, U kept playing My life by Your rules,  
But no more ..

As iridescent light filled the musky canyons,  
A new morning, my mind, born with distant horizons,  
My friends, my love, my life that You had abashed,  
" I will have them ", I thought and smiled,  
As I walked off to make my morning tea with panache.

## *White Flag*

by Chris Sample

The fog on the window, steam on my glasses  
Making a spectacle out of a freckle of life  
Smearing the moisture like words on a page  
This is my moment, this is my age

Halfway between meaning and being  
The dust on my brow, the scars on my cheek  
The signs of existing, the signs of living

Seeing this world as a blind man with his stick  
Though all seems broken, it's nothing I can't fix

Walking the pavement with my flag held high and no intention to fight  
Yet even with surrender in mind, my flag is only painted white

Flames nestled in company of an ocean drawn blue  
Soaked in lies, I am burned by the truth and I question  
"If this is what real feels like,  
then how does it feel to be you?"

### *Dandelion Dream*

by Jessie Hahn

She spent her morning  
Watching sunrise,  
Discovering pebbles,  
Collecting dew  
on tattered jeans  
and flopping shoestrings.  
In early morn she saw me here,  
bathed in sparkling morning sunlight  
and dew.  
She told me shed come back this way,  
And, knowing how way leads on to way,  
I doubted her returning,  
but of course the children are most to be trusted.  
And here she skips,  
crunching leaves as her ponytail bounces behind her;  
the crisp air has rosied her cheeks.  
She smiles and plucks me up,  
Wrinkles her eyes shut and her lips form her wish.  
I am filled with joy as she sends me scattered:  
My only wish fulfilled  
as I am transformed into hers.

### *Photons*

by Alyssa Bryant

They leave their stars in a wave  
(with a wave goodbye)  
Return before their light goes out  
Return before they leave  
For in their wave  
Their wave goodbye  
Time moves sluggishly  
In this way a starry photon meets with one on our Earth  
Travels with and takes it back

No Evening Star to fall in  
Love or into jealous rage  
No Ghost of Music lingering  
Obsessively in the wings

The halls of Stars are golden  
Inlaid and out  
The halls of Stars are molten  
Redesigned evry hour  
Even the hours melt together  
Molten Lava Time  
Photons bounce through waves of it  
As they wave Hello Goodbye

## Editor's Note

Dear Missouri S&T Students,

It is my pleasure to present to you the 2011-12 Missouri S&T Yearbook. The completion of this book concludes my second and final year as Editor in Chief of the Rollamo Yearbook. My time in office has been an amazing experience thanks to the staff of students who have worked long and hard to produce a great book for the S&T campus.

One of our goals this year was to redesign the book in a way to get more copies to students. We have achieved this by increasing the number of books printed by 500 and the number of pages by 52 while maintaining the budget set forth by the student body.

Another goal of ours was to increase student involvement in the yearbook. This year the Rollamo Yearbook invested time in social media so that students may post their images and memories online. The Organizations, Student Life, and this year's Time Capsule section are completely dependent on advertisements, images, and invitations given to us by students/staff/faculty. Your input is vital to creating a great yearbook jammed pack with your college experience each year. We encourage students contact us at [Rollamo@mst.edu](mailto:Rollamo@mst.edu) and to check out our website [[mst.edu/~rollamo](http://mst.edu/~rollamo)] to find out how they can become more involved with the yearbook.

I would to thank everyone over this past year who has worked with us when it came to scheduling photos, finding images, meeting deadlines, and donating their time to the creation of the 2011-12 yearbook.

Sincerely,

**Christopher Sample**

Editor in Chief of the Rollamo Yearbook  
Missouri University of Science and Technology
